### **THE CITY OF BURNABY – FOOD SCRAP BINS**

---

The City of Burnaby has delivered three 240 L green bins for food scraps, along with a package of educational material that will be distributed to all Owners. This package will explain how to use the bins properly. Pickup will be on Mondays. This new program is mandatory and not an option. Please prepare for this as you should have a separate storage container for your food waste contained within your own home. All food scraps must be wrapped in paper/or paper products before disposing of them in the food scrap bin.

Sincerely,  
**BAYSIDE PROPERTY SERVICES LTD.**
